

genevalmag::Semantics_checks::correct_associativity

```
graph LR; A[genevalmag::Semantics_checks::correct_associativity] --> B[genevalmag::Expr_function::get_function]; A --> C[genevalmag::swap_root_child];
```

The diagram illustrates a central node, `genevalmag::Semantics_checks::correct_associativity`, which is highlighted with a gray background. This node has two outgoing arrows pointing to two other nodes: `genevalmag::Expr_function::get_function` (top right) and `genevalmag::swap_root_child` (bottom right). All nodes are rectangular boxes with black borders.
