

genevalmag::Expr\_function::compare\_precedence

```
graph LR; A[genevalmag::Expr_function::compare_precedence] --> B[genevalmag::Expr_function::get_function]; A --> C[genevalmag::Function::get_prec];
```

The diagram illustrates a central node, `genevalmag::Expr_function::compare_precedence`, which is highlighted with a gray background. From this central node, two blue arrows point to two other nodes. The top arrow points to `genevalmag::Expr_function::get_function`, and the bottom arrow points to `genevalmag::Function::get_prec`. All nodes are rectangular boxes with black borders.
