

genevalmag::Function::key

```
graph LR; A[genevalmag::Function::key] --> B[genevalmag::Function::get_name]; A --> C[genevalmag::Function::is_operator];
```

The diagram illustrates a central node, 'genevalmag::Function::key', which is highlighted with a gray background. Two blue arrows originate from the right side of this central node and point to two separate white nodes on the right. The top node is labeled 'genevalmag::Function::get_name' and the bottom node is labeled 'genevalmag::Function::is_operator'. All nodes are rectangular and have a black border.

genevalmag::Function::get_name
