

src/Expression\_tree/Expr\_literal.cpp

```
graph TD; A[src/Expression_tree/Expr_literal.cpp] --> B[iostream]; A --> C[../../include/Expression_tree/Expr_literal.h];
```

The diagram illustrates the dependencies of the file `src/Expression_tree/Expr_literal.cpp`. It is represented as a central box at the top, with two arrows pointing downwards to two other boxes. The left arrow points to a box containing `iostream`, and the right arrow points to a box containing `../../include/Expression_tree/Expr_literal.h`. The top box has a gray background and a thick black border, while the bottom boxes have white backgrounds and thin gray borders.

iostream

../../include/Expression\_tree/Expr\_literal.h
