

genevalmag::Semantics_checks::correct_associativity

```
graph LR; A[genevalmag::Semantics_checks::correct_associativity] --> B[genevalmag::Expr_function::get_function]; A --> C[genevalmag::swap_root_child];
```

The diagram consists of a central gray rectangular box on the left. From its right side, two blue arrows point to two separate white rectangular boxes on the right. The top arrow points to a box containing the text 'genevalmag::Expr_function::get_function'. The bottom arrow points to a box containing the text 'genevalmag::swap_root_child'.

genevalmag::Expr_function::get_function

genevalmag::swap_root_child
