

genevalmag::Equation::inorder_only_instance

```
graph LR; A[genevalmag::Equation::inorder_only_instance] --> B[genevalmag::Expr_node::get_child]; A --> C[genevalmag::Expr_node::get_children];
```

The diagram illustrates a central node, `genevalmag::Equation::inorder_only_instance`, which is highlighted with a grey background. Two blue arrows originate from the right side of this central node, pointing to two separate white rectangular boxes. The top box contains the text `genevalmag::Expr_node::get_child`, and the bottom box contains `genevalmag::Expr_node::get_children`. All boxes have a black border.
