

include/Parser/Semantics_actions.h

```
graph BT; A[include/Parser/Semantics_actions.h] --> B[src/Parser/Parser_AG.cpp]; A --> C[src/Parser/Semantics_actions.cpp];
```

The diagram illustrates a file dependency structure. At the top is a gray rectangular box containing the header file path 'include/Parser/Semantics_actions.h'. Below this box are two white rectangular boxes. The left box contains 'src/Parser/Parser_AG.cpp' and the right box contains 'src/Parser/Semantics_actions.cpp'. Two blue arrows originate from the bottom of these two boxes and point upwards to the bottom edge of the header file box, indicating that both source files include this header.

src/Parser/Parser_AG.cpp

src/Parser/Semantics_actions.cpp
